

ABSTRACT

A method of ordering a translation of an electronic communication, such as a web page or an email, using a one-click translation component displayed on the web page or in the email. Clicking the one-click translation component automatically requests a translation of the selected communication and returns the communication to the user. The method is controlled by a translation manager that obtains the translation and directs transmission of the translation to the user.

A single-click translation system for working the method is also described.

1. The first group of people who are affected by this disease are those who have a family history of the disease.
